

BALLET

The Ballet is a reborn modern classic. Combining traditional elements such as a high ankle cuff, stiff midsole and relatively symmetrical toe profile with modern developments including a mild downturn and highly sticky Zenith Pro™ rubber, Ballet is perfect for big routes and long days.

Ballet features a premium quality high - top split leather upper and a secure lace closure. The low volume last shape has been kept more symmetrical to help fit those with long second toes, and features a mild downturn with a precise toe box. The high ankle aids support on long routes, and incorporates padding to protect the foot while jamming into cracks.

A stiff midsole supports the foot on long routes, while Sticky Zenith Pro™ rubber provides excellent friction and a firm hold even on tiny edges.

For those who want a blend of classic comfort and modern performance, Ballet is the ideal choice.

- **UPPERS** Split leather with lace closure for optimum fit. Extra rubber toe patch and ankle protection for crack climbing
- **LINING** No
- **MIDSOLE** Special anti deformation midsole
- **CONSTRUCTION** Slip-Lasted
