

NINJA JUNIOR

A classic for your kids! Boreal Ninja Junior takes the same high quality materials, fit and performance of our adult shoes, and puts them into a friendly, easy to use package.

A high quality unlined split leather upper is fastened with a single wide-entry strap closure. This ensures the shoe is both very easy to put on, and comfortable in use. A medium stiffness midsole and our sticky Zenith Quattro™ rubber provide the ideal blend of edging and smearing performance. Our Cushioned Heel System provides comfort and protection while walking between routes.

An innovative strap closure at the heel means that each shoe is adjustable over 2 sizes, perfect for growing feet. The Ninja Junior is a comfortable, reliable and versatile shoe for all junior climbers.
